EXPERIENCE

- **ZIZ INC.** Astana, Kazakhstan
Middle Frontend Developer Jun 2024 – Present
 - **Lets Car:**
 - * Developed a modern car selling platform with a responsive UI using Next.js, React, Shadcn UI, and Tailwind CSS.
 - * Built a dynamic multi-step car submission form with **react-hook-form** and sortable image uploads using **@dnd-kit**.
 - * Enhanced user interaction with smooth animations via **framer-motion** and **auto-animate**.
 - * Integrated authentication with NextAuth, schema validation using Zod, and server state management with React Query.
 - **Skills Enbek Admin Dashboard:**
 - * Created a scalable admin panel for managing user skills and analytics, improving platform usability.
 - * Used Zod and **react-hook-form** for robust form validation and React Query for efficient data fetching.
 - * Designed an accessible UI with Tailwind CSS, Radix Primitives, and **lucide-react**, supporting theme switching.
 - * Enabled data exports to Excel/PDF via **xlsx**, **jspdf**, and **file-saver**.
 - * Added support for markdown and mathematical expressions using **marked** and **katex**.
 - **Chemexpress:**
 - * Delivered a performant web platform for managing chemical product data with modern React architecture.
 - * Simplified form workflows with **react-hook-form**, Zod, and React Query for smooth user input handling.
 - * Boosted engagement through animations and mobile-friendly carousels using **embla-carousel**.
 - * Implemented internationalization with **next-intl** and maintained global state with Zustand.
 - **CI/CD:**
 - * Set up CI/CD pipelines using GitHub Actions, replacing legacy processes for faster and more reliable deployments.
 - * Cut deployment time by 40% and increased release confidence across environments.
